Key Benefits

- Reduce Fraud & Risk
- Card Vaulting and Storage
- Direct PIN Pad Integration
- Tokenized Card on File
- EMV Payment & Smart Card
- Simple, Intuitive Interface
- Secure Data Access
- Enables PCI-Compliance

Analytics Designed for Success

Uncover the hidden stories behind your sales data and customer spending patterns, growing sales, improve marketing efforts, and find new customers.

Easy to Implement

TotaLink connects you directly to card reading devices and processing networks. With our simplified interface and a detailed integration guide, you need just a few modifications to your code.

Universally Compatible

Supports xml, jons, SQL and Non-SQL systems along with MultiValue system, Universe, Universe, D3, jBASE, OpenQM running on any environments, Windows, Linux, Unix, and AIX.

Simplified Security

We've simplified the process of PCI compliance through secure tokenized vaulting and storage of Payment Card Information. This reduces the need for expensive, complex PCI auditing.

Features

- Secure Card Vaulting
- Multiple Merchant Capable
- Chip PIN
- Multiple Processing Protocols
- Unlimited Transactions
- Three Second Authorizations
- Transaction Querying
- Post Voids and Returns
